**Alc/Drg/Gambling History**

**Identifying Information:**

This client was welcomed to the Chemical Dependency dept. and the evaluation process was explained to him. Jud is a divorced 53 year old Caucasian male. He is from Yankton, SD and was living with his girlfriend prior to him coming to SD Counseling in Sioux Falls, SD. He spent two years in prison (Sept. 2005-Dec. 2007) for aggravated assault. He currently has no outstanding court dates. Jud wants to work on becoming sober again. He was referred to SD Counseling Program by his parole officer for a treatment needs assessment after receiving a DUI.

**OverView of Prior CD Services:**

Jud completed treatment at the South Dakota State Penitentiary in September 2006. He reports not learning anything in treatment, however he was able to stay sober for about 2 years before relapsing by staying way from friends, working a lot, going to AA meetings and getting a sponsor. Jud feels he needs to believe in himself, attend AA, continue to stay away from old people/place and have a job in order to be successful in the future. He does not know how anyone can help him. He stated his goals for a happy life are to stay sober. Jud reports he was able to manage his life prior to being incarcerated by overcoming obstacles and by not giving up. He is most proud of being able to set goals and accomplishing them. He feels he can remain sober if he applies himself

**Local ID:** 11111-10F400

**MH Adm Date:**

**ADA Adm Date:** 10/10/2010

**Provider:** South Dakota Counseling

**Alcohol and Other Drug Use History:**

**Y Alcohol**

**N IV Drug Use**

Jud stated his first use was at the age of 16, with regular use every weekend for 20 years. His usual consumption was more than 12 beers and shots of liquor, with his maximum consumption being the same. Around the age of 30 he started drinking daily, he drank a 12 pack plus 2-3 travelers of vodka or whiskey per day. He stated that he was depressed and having problems with his wife. At the age of 35 after a night of heavy drinking he was arrested for aggravated assault. He attended treatment in 2006. In July of 2010 Jud failed the 24/7 program by having a .034 pbt. He reports doing well for a period of two year before his stress level caught up with him and he began drinking on Friday and Saturdays for a two month period. He reports drinking a lot, until the point of being wasted, and that if had asked for help sooner this may have helped deal with the stress. His last use was September 30, 2010. In the past Jud admits to drinking more than he intended and having a hard time controlling his use. He has experienced nausea/vomiting and has had hangovers due to his drinking.

**Y Cannabis/Hashish**

Jud stated that he smoked marijuana for the first time at the age of 16 but did not make it a habit. He stated that his drug of choice is alcohol and only smoked marijuana when he needed to relax. Jud stated that he smoked one blunt while on parole because he was having problems with his girlfriend and thought that it would help him relax and deal with the stress. He reports no signs/symptoms of tolerance. He reports his last use in July of 2010.

**Clinical Impression of Substance Use:**

Jud was oriented to person, place and time. Jud is presently seeking an assessment due to recently receiving a DUI. He was open to talking about his recent use and stated he just wanted to get away from it all. Jud is willing to attend treatment and work towards his recovery.

**Gambling History:**

Denies gambling history.
